I know, just thought it might be embarrassing if the local club receives a ticket.

Right, but under CERCLA we are not required to obtain permits, but must meet all substantive requirements. We should definitely coordinate with them, however.

Subject: Fish Sampling

Hey Chip and Kristine,

You probably are already on top of this, but I wanted to mention that I believe ODFW requires a permit to harvest fish for research purposes even if collected by hook and line. The only reason I know this is that ODFW issued a ticket to the USACE for harvesting crayfish for chemical analysis at Bradford Island without a permit.
